Coding Acumen

This section will help us with setting the pace of the course and getting to know our students better.

Are you ready to be trained at whatever schedule pepcoding decides for you? *

- (•) Yes
- ( ) No

What is the quantum of training in a single day you can make yourself available? *

- (•) 4 hours
- ( ) 8 hours
- ( ) 12 hours

How many days in a week can you make yourself available? *

- ( ) Less than 5

- ○ 5
- ○ 6
- ◉ 7

How many recursion questions have you coded so far? *

- ○ Less than 10
- ○ 10 to 25
- ◉ 25 to 50
- ○ More than 50

Can you code without revision or reference, permutations of a string? *

- ◉ Yes
- ○ No
- ○ Maybe

Can you code without revision or reference, the nqueens problem? *

- ○ Yes
- ◉ No
- ○ Maybe

Can you code without revision or reference, the flood-fill problem? *

- ○ Yes
- ○ No

- ◯ Maybe

Can you code without revision or reference, the knights-tour problem? *

- ◯ Yes
- ◯ No
- ◯ Maybe

Can you code without revision or reference, the sudoku problem? *

- ◯ Yes
- ◯ No
- ◯ Maybe

Can you code without revision or reference, the crossword problem? *

- ◯ Yes
- ◯ No
- ◯ Maybe

Can you code without revision or reference, the next greatest element problem? *

- ◯ Yes
- ◯ No
- ◯ Maybe

Can you code without revision or reference, the largest area histogram problem? *

- Yes
- No
- Maybe

Can you code without revision or reference, the stock-span problem? *

- Yes
- No
- Maybe

Can you code without revision or reference, the floyd cycle (linkedlists) problem? *

- Yes
- No
- Maybe

Can you code without revision or reference, the intersection point of two linkedlists problem? *

- Yes
- No
- Maybe

Can you code without revision or reference, the mergesort of two linkedlists problem? *

- Yes
- No
- Maybe

Can you code without revision or reference, the diameter of a tree problem? *

- Yes
- No
- Maybe

Can you code without revision or reference, the levelorder of a tree problem? *

- Yes
- No
- Maybe

Can you code without revision or reference, the construction of tree from preorder and inorder problem? *

- Yes
- No
- Maybe

Can you code without revision or reference, the AVL tree? *

- Yes
- No
- Maybe

Can you code without revision or reference, the k-anagram problem? *

- Yes
- No
- Maybe

Can you code without revision or reference, the count subarrays with 0-sum problem? *

- Yes
- No
- Maybe

Can you code without revision or reference, the merge k sorted linkedlists problem? *

- Yes
- No
- Maybe

Can you code without revision or reference, the median priority queue problem? *

- Yes
- No
- Maybe

Can you code without revision or reference, the bfs of a graph problem? *

- Yes
- No
- Maybe

Can you code without revision or reference, the dfs in a graph problem? *

- Yes
- No
- Maybe

Can you code without revision or reference, the djikstra algorithm in graph problem? *

- Yes
- No
- Maybe

Can you code without revision or reference, the kruskal algorithm in graph problem? *

- Yes
- No
- Maybe

Can you code without revision or reference, the topological sort of graph problem? *

- Yes
- No
- Maybe

Can you code without revision or reference, the bridges in a graph problem? *

- Yes
- No
- Maybe

Can you code without revision or reference, the articulation points in a graph problem? *

- Yes
- No
- Maybe

Can you code without revision or reference, the coin change problem of DP? *

- Yes
- No
- Maybe

Can you code without revision or reference, the 0-1 knapsack problem in DP? *

- Yes
- No
- Maybe

Can you code without revision or reference, the friends pairing problem of DP? *

- Yes
- No
- Maybe

Can you code without revision or reference, the knights probability problem in DP? *

- Yes
- No
- Maybe

Can you code without revision or reference, the cherry pickup problem of DP? *

- Yes
- No
- Maybe

Can you code without revision or reference, the scramble strings problem of DP? *

- Yes
- No
- Maybe

Can you code without revision or reference, the problems involving bits using DP? *

- Yes
- No
- Maybe

Can you code without revision or reference, the median of two arrays problem? *

- Yes
- No
- Maybe

Can you code without revision or reference, the Kadane's algorithm for arrays? *

- Yes
- No
- Maybe

Can you code without revision or reference, the majority element problem of arrays? *

- Yes
- No
- Maybe

Can you code without revision or reference, merge sort of arrays? *

- Yes
- No
- Maybe

Can you code without revision or reference, quick sort of arrays? *

- Yes
- No
- Maybe

Can you code without revision or reference, the ceil and floor problem of arrays? *

- Yes
- No
- Maybe

Can you code without revision or reference, solve the problem of searching in a sorted rotated array? *

- Yes
- No
- Maybe

Can you code without revision or reference, the problem all repeating except two of bit manipulation? *

- Yes
- No
- Maybe

Can you code without revision or reference, the problem all repeating except one of bit manipulation? *

- Yes
- No

- Maybe

Can you code without revision or reference, the problem all repeating three times except one of bit manipulation? *

- Yes
- No
- Maybe

Can you code without revision or reference, the problem of rotating a matrix by 90 degree without taking extra space? *

- Yes
- No
- Maybe

Can you code without revision or reference, the KMP algorithm in Text Processing? *

- Yes
- No
- Maybe

Can you code without revision or reference, the Manacher's algorithm in Text Processing? *

- Yes
- No

Maybe

Can you code without revision or reference, the Rabin Karp algorithm in Text Processing? *

- Yes
- No
- Maybe

Can you code without revision or reference, Trie's and problems of Trie in Text Processing? *

- Yes
- No
- Maybe
